CULTIVATING the Missional Church
New Soil for Growing Vestries and Leaders
MISSION

The Way Forward in Chapter 6
The transition to post-communism is marked by a moment of change that alters the political landscape in a significant way. In the context of this transition, the political arena is redefined, and new political forces and actors emerge. The traditional systems of control and governance are dismantled, and the stage is set for the development of new political institutions and processes.

The process of post-communism transition involves a series of challenges and opportunities. One of the key challenges is the need to establish democratic institutions and practices. This includes the development of a competitive electoral system, the protection of civil liberties, and the rule of law. Additionally, the economic transformation is crucial, as it requires the transition from a command economy to a market-based economy.

The transition to post-communism is also marked by social and cultural changes. With the fall of the old regimes, new identities and values emerge, often leading to conflicts and rivalries. The process of national reconciliation and the promotion of tolerance and understanding are essential components of this transition.

In summary, the transition to post-communism is a complex and multifaceted process. It requires a combination of political, economic, social, and cultural changes to create a stable and prosperous future. The challenges are significant, but the opportunities for progress are also great.
DISCUSSION

In part one, entitled “The Story We Tell and the Story God Tells” (see p. 107),
there is a brief introduction essay on the Christian foundation of mission.

Throughout the balance of the leadership group,
the reader will find access to study guides for each book. In the
“Leading Questions” (53) you will find access to study guides for the books.

If this also offers an opportunity for you to reflect and discuss
researched, you may ask questions of the readers. A discussion of this paper is
then written in the first stages of the mission. A discussion of the paper is
not written for this second stage. (See the first stage of the sermon.

The second stage is to reflect on the two sections and work toward its
Edgar, “Christianity and Christian Mission” (p. 104). Our modern church, the Church of
